

Text Measurement

Left-aligned at 320

Centered at 320

Right-aligned at 320

Measured width

box = measured width 181.2 pt x (ascender 19.1 + descender 6.1) pt

This paragraph is wrapped, then the surrounding box is sized to fit the actual content: its width matches the longest line and its height matches the line count. Accented words like café and naïve are measured correctly too.
